Why Use the Latest?

FEW PEOPLE REALIZE HOW MANY CHANGES OCCUR IN A CITY'S POPULATION DURING A SINGLE YEAR.

THE ACTUAL CHANGES ARE SHOWN BELOW:

1726868

New names written in	22%
Old names taken out	19%
Changes in location	29%
TOTAL CHANGES	70%

This shows the danger in trusting to an old edition of the Directory. It may be right, but is apt to be wrong. It is cheaper to buy a new book than to take chances.

A SUGGESTION

Before using a directory anywhere, look to see if it is the latest edition. The merchant who does not keep the latest Directory for his customers' convenience, does not show them a courtesy they may obtain elsewhere.

YOU SHOULD BE REGISTERED

Under every heading in the Directory where people might look for you. The Directory is the natural buyer's guide, and one glance at the advertising section will convince you that keen business men realize this fact.

Your name in bold type under the headings not only gives you an advantage over competitors not so described, but protects all other advertising you may do.

Frequently the desire to purchase is not aroused until the display advertisement that suggested it is misplaced or thrown away. Then the natural place to look is in the Directory.

THE COST

Of registration is so slight when one considers its value, and the fact that it is working 365 days in the year, that no live concern can afford to overlook it.

THE GAZETTEER PUBLISHING & PRINTING COMPANY

Directory Publishers **Denver, Colorado**

WYOMING STATE BUSINESS DIRECTORY

For 1921

STATE OFFICERS.

EXECUTIVE DEPARTMENT.

ELECTIVE OFFICERS.

Term, four years. Next Election November 7, 1922.

AFTON.

"The Home of Star Brand Butter and Cheese."

A prosperous and growing town in Lincoln county. Located in the beautiful Star Valley on the Salt River. Star Valley is about 50 miles long and 5 miles wide and has many of the characteristics of an earthly paradise. Afton is the largest of the nine towns located in this valley. The principal industries of the surrounding country are dairying, the manufacturing of creamery

Basin **Wyoming**

BASIN

Basin is the county seat of Big Horn County. Population, 1,200. Elevation, 3,682 feet. Basin is located on the west bank of the Big Horn river and on Hill's main line from the Gulf to the Coast, and on the Yellow Trail, the famous tourist route from Chicago to the Yellowstone National Park. Only 75 miles from the east and main entrance to the National Park. Basin owns and conrols its own electric light plant, waterworks and sewerage system. Basin has an abundance of natural gas for domestic and manufacturing purposes. It has an $80,000 court house, one of the most attractive and best equipped federal or post office buildings in the state, costing some $60,000. It also has a $15,000 Carnegie public library, most up-to-date high schools in the Basin country, and a $40,000 grammar school building and one other in building and one other in course of construction.

Basin is the home of the Big Horn County Fair, the largest and most successful county fair of any western state.

Basin is the nearest large town to the geographical center of the Big Horn Basin, a country extending about 150 miles each way. It is the heart of the richest agricultural and stock growing area in the state of Wyoming

Basin is rapidly growing as an agricultural metropolis because its sultriness of the middle western and states of the east, it is never really hot—are now being distributed and finding ready market all over the country.

The natural surroundings of Basin could not be better. You see on all sides high mountain ranges, with snow-capped peaks, that keep away the cold of winter and temper the climate of summer. As compared to the sultriness of the middle western and states of the east, it is really hot—Summer resort weather from early spring until late fall is he delight of the citizens of Basin.

It is conceded that Basin is the most beautiful town in the northwest. Basin, nestling in a deep, rich valley, has many natural advantages, but whatever these advantages have done for Basin, its citizens have done more. The location of the town could not be better, ideal, but surroundings or environment do not build a town, build business blocks or fine residences, do not construct streets, nor do they help conduct a city's government. Basin is a town of commanding business blocks, wide, open streets and pretty residences. Basin is one of the cleanest cities in the United States, both morally and physically. Basin takes a pride in the appearance of the town. You see it in its attractive residences and commanding business blocks, in which her citizens make their homes or attend their business or profession. Basin is built on a solid foundation against years to come.

The commanding position which the city of Basin occupies by reason of its location and transportation facilities, gives it a future that is secure. Moral and educational influences, every modern convenience and our delightful climate makes Basin the best residence city in the country. The city has never had a boom, but has always enjoyed a steady and substantial growth which will make it one of the great inland cities of the northwest. The "Garden City" or the "City of Opportunity," as it is called, and it is well merited. Basin's residence streets are embowered in shade and its homes are surrounded by attractive lawns and well kept grounds and gardens. Its educational and social life is liberal and earnest. It is a well governed city and well controlled, for a place of residence or a place of business is course of construction.

NAMES APPEARING IN BLACK LETTERS

in this Directory represent the **ENERGY AND PUSH** of the city, and it is a pleasure for the publishers of the Directory to have the opportunity to make the public acquainted with them through our pages. Those in **BLACK LETTERS** are the people who **ACCOMPLISH THE WONDERS** in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city. When you **PATRONIZE THOSE IN BLACK LETTERS** you patronize men and firms who will patronize you in the same broad manner in which you patronize them.

THE STATE DIRECTORY is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyer's Guide on earth. A modern up to date method of getting what you want.

CASPER.

CASPER—THE SQUAREST CITY IN THE SQUAREST COUNTY IN THE SQUAREST STATE IN THE UNION—WYOMING.

Casper is the largest city in Wyoming, and is located in the geographical center of the State. Casper is the industrial center of the Rocky Mountain region, is the second largest wool shipping point in the United States, and the oil fields of Natrona county, of which Casper is the county-seat, supports one of the largest crude oil refineries in the world—the Midwest Refining Company's Plant. The Standard Oil Company refinery ranks as one of the largest and most important in the country. More than five million dollars will be expended for improvements at these refineries during 1921-22. About three thousand men are employed at these refineries, alone. Casper's payroll is estimated at more than a million a month.

During the first four months of 1921, more than a million dollars worth of business buildings were contracted for and residences costing over a half million dollars are now under construction. Casper's educational system is the finest in the West, supporting a corps of 125 teachers, who are paid the highest wages; nine modern school buildings including two high schools. The leading religious denominations are represented by ten churches, all of which are either housed in modern church homes, or have new buildings under construction.

Ten miles of paved streets, many miles of concrete sidewalks, five miles of concrete highway already laid, and thirty miles more contracted for on the Salt Creek Road, a city hall costing $165,000, and a $200,000 Court House, a $100,000 Masonic Temple, and a $75,000 Odd Fellows Building, several modern office buildings ranging from $100.00 to $250,000, tell the tale of the modern city of Casper, while a new $100,000 Elks' Club, a $75,000 Y. W. C. A. building, a $150,000 newspaper plant, a $50,000 Moose Home, a new $75,000 theatre, three new bank buildings costing up to $300,000 give an inkling of what the Casper of tomorrow will be. Casper is the most important stop on the Yellowstone Highway, a division point on the Chicago & Northwestern, and the C., B. & Q. Main Lines.

For
GOOD PRINTING

Economically Produced

SMITH-BROOKS

The Largest and Most Complete
Printing Plant in the West

of DENVER, *COLORADO*

DO THIS! Take up your next printing with Smith-Brooks. In one way or another they will be able to assist you in obtaining *exactly* what you wish and at *your* price, for they have the equipment and deem it a pleasure to give you *all* the assistance you may require.

OUR regard for a customer's money is shown in the very careful attention we give his work.

Cheapening the job to save a few dollars is generally an act of ignorance which defeats the very purpose for which the work is intended.

When you invest money in printing you have a right to expect profitable returns from your investment.

It takes brains and a fine knowledge of human nature to produce profitable printing--the only kind you can afford to invest your money in.

By the way, have you ever seen a piece of poor printing that paid?

The

SMITH-BROOKS PRINTING

Company

Denver, Colorado

CHEYENNE

Where minds are broad as the
Plans are wide
Where hearts are deep as the
Mountains high

CHEYENNE, a city of 16,000 people, has bank deposits exceeding $23,000,000.

CHEYENNE, the business center of Wyoming, has monthly bank clearings that often exceed $8,000,000—doing a business of a city four or six times the size.

CHEYENNE, "THE AIRPLANE CITY OF THE PLAINS," is the main airport of the Rocky Mountain region, and a control point of the U. S. Air Mail Service.

CHEYENNE, the metropolis of Wyoming, is the general headquarters and distributing point of the great cattle and sheep ranges of the West.

CHEYENNE, the railroad center of Wyoming, has four transcontinental arteries, the Yellowstone and Lincoln Highways, and the Union Pacific, Burlington and C. & S. Railroads.

CHEYENNE, at the intersection of the Yellowstone and Lincoln Highways, is the gateway to the Switzerland of America—Yellowstone National, Estes, and Rocky Mountain National Parks.

CHEYENNE, a tourist center, has the finest free municipal camping ground in the West, beautiful mountain scenery, trout fishing and game hunting within twenty-five miles of the city limits that annually attract sportsmen from all parts.

CHEYENNE, an ideal summer resort, has a mean temperature of 65 degrees during the summer months.

CHEYENNE, the originator of Frontier Days, gives the world-famous cowboy celebration the last week in July.

CHEYENNE, the capital of Wyoming, is the political center of one of the greatest producing states in the union.

CHEYENNE, a city of homes, adjoins the second largest military post in the United States, Fort D. A. Russell.

CHEYENNE, the Hub of Wyoming, has the largest railroad shops on the Union Pacific System, wiht an annual payroll for Cheyenne and adjacent territory exceeding $9,000,000.

CHEYENNE, the leading and wealthiest city in one of the richest states in the West, has one of leading newspapers of the state; one of the finest hotels west of the Mississippi; and a two million dollar municipally-owned water system.

ALL ROADS LEAD TO CHEYENNE.

T. P. FAHEY, President J. C. UNDERWOOD, Vice-Pres.
W. K. JONES, Secretary and Manager

The Welch-Haffner Printing Company, Denver, *Leads in Color Engraving & Printing in the West*

-+WH+-

Catalogues

for all branches of trade

Changing business conditions call for quick work in compiling, printing and mailing your catalogue. Why not put that entire job into the hands of a responsible concern of wide experience and rid yourself of the grief of doing it and avoid the probable attendant delay?

We have one of the largest and best equipped catalogue departments in the United States. Men of sound judgment and years of experience in merchandising are available for doing your compilation.

Tens of thousands of cuts are ready for our customers to use, and our unequaled facilities for designing, engraving, printing, binding and mailing insure economy, accuracy and prompt delivery.

A letter or a phone call will bring you the information you require.

COKEVILLE WYOMING

COKEVILLE.

A town on the Oregon Short Line Railroad in Lincoln county, 42 miles northwest from Kemmerer. Pleasantly located at the junction of Bear River and Smith's Fork, near the Sublette mountain range and Rocky Point mountain. Splendid hunting and fishing. Coal is found in abundance here, and there are some undeveloped gold and silver properties. Cokeville is an extensive distributing and shipping point for stockmen. Daily mail and auto stage to and from Afton. Population 300, voting precinct 400. Altitude 6,200 feet.

DOUGLAS.

The county seat of Converse county, on the Chicago and Northwestern and C., B. & Q. Ry., one hundred and eighty miles due north of Cheyenne, on the famous Yellowstone Highway. The direct road to Yellowstone Park, on the banks of the North Platte river and surrounded by splendid irrigated ranches and stock raising country. Douglas is one of the important commercial and wool shipping centers in Wyoming. Electric lights, new ninety thousand dollar water works, sewers, etc. good churches and excellent modern school buildings. Its citizens point with great civic pride to the modern federal building in which are located post and land offices, a beautiful court house and new City Hall. Natural gas and oil wells near city now under active development. Population about thirty-five hundred, altitude 4.816 feet. For further information, write to Secretary of Community Club. (For cattle and sheep men see the Live Stock and Wool Growers' List under Converse County.)

Why Use the Latest?

FEW PEOPLE REALIZE HOW MANY CHANGES OCCUR IN A CITY'S POPULATION DURING A SINGLE YEAR.

THE ACTUAL CHANGES ARE SHOWN BELOW:

New names written in	22%
Old names taken out	19%
Changes in location	29%
TOTAL CHANGES	70%

This shows the danger in trusting to an old edition of the Directory. It may be right, but is apt to be wrong. It is cheaper to buy a new book than to take chances.

A SUGGESTION

Before using a directory anywhere, look to see if it is the latest edition. The merchant who does not keep the latest Directory for his customers' convenience, does not show them a courtesy they may obtain elsewhere.

YOU SHOULD BE REGISTERED

Under every heading in the Directory where people might look for you. The Directory is the natural buyer's guide, and one glance at the advertising section will convince you that keen business men realize this fact.

Your name in bold type under the headings not only gives you an advantage over competitors not so described, but protects all other advertising you may do.

Frequently the desire to purchase is not aroused until the display advertisement that suggested it is misplaced or thrown away. Then the natural place to look is in the Directory.

THE COST

Of registration is so slight when one considers its value, and the fact that it is working 365 days in the year, that no live concern can afford to overlook it.

ENCAMPMENT.

An important mining center in Carbon county, at the terminus of the Saratoga and Encampment Ry. Encampment has all the modern city conveniences—electric light water works, churches and schools. The town is located at the junction of the north and south forks of the Grand Encampment river, and is favorably placed for a large city. A favorite fishing and hunting resort. Farming and stock raising in the valley adjacent. Population 400. Altitude 7,322 feet.

GLENROCK

Nature's Strong Box

Glenrock admittedly the most prosperous town of its size in Wyoming, if not in the entire west, and potentially an oil center second in importance only to Casper—has already started to realize its certain destiny. With the derricks of the Big Muddy oil field within sight from the city, this fortunately placed town commands the trade from the hundreds of well paid working men who are within a few minutes' riding distance from the well stocked mercantile establishments of Glenrock. While Glenrock's greatest industry is oil its resources are by no means confined to that commodity, and these other important assets will be dealt with later.

The Mutual Oil Company, which has operated a refinery in Glenrock about four years, is compelled to increase its capacity in order to be able to handle its share of the rapidly increasing production of crude oil. Arrangements have already been made for the erection of three additional buildings, eight stills and twenty tanks, the tanks having storage capacity ranging from 1,200 to 55,000 barrels. The Standard Oil Company has recognized the importance of Glenrock as an oil center and has started the construction of a refinery adjacent to the Mutual plant. The Standard will immediately install ten Burton stills, with other necessary equipment for rehandling the oil skimmed at the Mutual plant, and eventually will have at least forty stills in operation and a wax plant to give commercial value to every element of crude oil.

Coal gave birth to Glenrock years before oil made the town famous and wealthy, and though it was a modest village it ranked well with other towns of its size. Its mines have yielded steadily for several decades and just now this important industry is undergoing a revival that means a greatly increased production, with the consequent employment of many more men. The old Fairview mine, rich in high grade coal, which has been closed several years, has been reopened by the Johnson Coal Co. and in the near future will be producing large quantities of coal. A guarantee of permanency to this mine has been given through the signing of contracts for the purchase of several hundred tons daily. Two other mines are in operation, supplying fuel locally at moderate prices.

In the mountains a few miles south of Glenrock is located a rich chromium mine, operated by the Ferro Alloy Co. of Denver. This mine will be operated all summer and its rich and valuable deposits hauled to Glenrock for shipment.

A new industry just installed is a modern brick plant capable of manufacturing large quantities of brick from excellent and plentiful material close at hand. This enterprise creates an entirely new and welcome pay roll.

Oil drilling operations in the Cole Creek dome, about ten miles, northwest of town, are under way and a newly discovered and promising field just east of the city is being prospected.

Agriculture is constantly gaining in prominence and promise, sturdy grazing lands to cultivated farms. Crops of greater diversity than heretofore have been planted this year by this army of farming pioneers, the variety being expected to serve as a test of the possibilities of this virgin soil. Much home grown seed is available this year and it is expected that better results will be obtained than from the imported seed that has heretofore been used.

The stock industry, the main stay and original industry of Wyoming, has suffered much during the past year from suddenly deflated prices, but the stockmen are a sturdy, courageous lot and are setting their faces toward the problem of meeting and solving new conditions imposed upon them. The past winter one of the mildest ever known in Wyoming—brought cattle and sheep through in good flesh and with unusual vigor. Weather conditions for lambing this spring were favorable, with a consequent bumper yield of lambs. The range is in good condition and the stockmen have every reason to hope for a good season.

Glenrock is a good home town. It is located on the Yellowstone and Grant highways, on the C. & N. W. railway, with the Burlington a half mile distant. It has an abundance of mountain water, cold, crystal clear and as pure as water can possibly be. An adequate sewer system insures sanitation. The town owns its excellent electric plant, has the best lighted streets of any small city in the country boasts of high-class school, two brick churches, splendid hotel facilities, several brick business blocks, two strong, well managed banks, fine and well kept residences and has a city park of thirty acres on the bank of beautiful Deer Creek. The park is the popular play ground for the citizens and is the mecca for the ever increasing horde of tourists whose comforts are carefully looked after. It is supplied with pure mountain water and is equipped with a pavilion and cooking accoutrements for campers.

Scant space this to set forth the wonderful resoources of a little city more generously endowed by nature than almost any other place in America, but more detailed information can be obtained from the willing secretary of the Glenrock Community Club, Glenrock, Wyoming.

GLENROCK HAS PROSPERED, IS PROSPERING AND WILL CONTINUE TO PROSPER. WHEN CAN WE EXPECT YOU TO JOIN US?

GREEN RIVER

An important railroad town on the Union Pacific Railroad, 320 miles west of Cheyenne and 176 miles east of Ogden, division point and terminus of the Oregon Short Line. Extensive shops located here. County seat of Sweetwater county. Electric light, a good water system, excellent schools and fine churches, large Caustic soda works. Good hunting and fishing. Green River has the largest brewery in the state, and is the headquarters for the stockmen of Sweetwater county. Population 2,000. Altitude 6,025 feet. (For cattle and sheepmen see the Live Stock and Woolgrowers' lists at Sweetwater county.)

GREYBULL

"The Oil City"

Greybull on the Yellowstone Highway is a division point on the Burlington Railroad, in Big Horn county, 8 miles north of Basin, the county seat. The railroad has a 20 stall round house and employs about 400 men. Two oil refineries are located here. The capacity of the refineries is about 20,000 barrels of refined oil per day. Greybull is the center of a proven oil field. It has good schools, churches and business houses. It is surrounded by a splendid farming and fruit raising section; 66,000 acres now being under irrigation projects. Cattle and sheep are produced in large numbers. More than 700 men are regularly employed. Monthly payroll, $100,000. Bank deposits showed an increase of 25 per cent in the year 1920. A workingman's town. Greybull has 1½ miles of paved streets. New $125,000.00 High School. Electric light, natural gas for light, power, fuel. Good water and sewer system. Large deposits of coal, gypsum and lime surround the town. The population is 2,692 and rapidly increasing. Cement sidewalks and crossings throughout the city. It is a modern, up-to-date town. Altitude 3,840 feet.

Hudson **Wyoming**

HUDSON.

An agricultural and coal mining town located on the C. & N. W. R. R., 10 miles east of Lander, the county seat of Fremont county. Is adjacent to the land on the Shoshone Indian reservation now being leased to settlers by the Indian department. Is a good sugar beet raising country and a large area has been contracted for this year by the Wyoming Sugar Company. Beets will be shipped to Worland. Three large coal mines in operation. Largest stock shipping point west of Casper. Has cement sidewalks and substantial business and dwelling houses. Population 500. Altitude 5,075 feet.

KEMMERER **WYOMING**

KEMMERER.

An important incorporated city on the Oregon Short Line in Lincoln county, the railroad center of a large mining district with a large payroll. Lincoln county has enormous tracts of the best coal lands, and contains one of the greatest stock ranges in the west. Many train loads of sheep and cattle are shipped from Lincoln county each year. Coal mining is the principal industry, a superior quality of semi-bituminous coal being mined here. Kemmerer was located in September, 1897, since which time it has enjoyed a rapid growth, which by no means is at an end. Located on Hams Fork, a beautiful stream, with elegant schools, several fine churches, two of the best banks in Wyoming, several hotels of the finest, two live newspapers, a planing mill, several large coal mines and many other industries of value and importance. A distributing point and commands a large patronage from ranch and stock men of the upper Green River valley extending north for one hundred and fifty miles. The business firms whose names appear herein are leading, most reliable and responsible in their respective lines, and will answer any inquiry truthfully and promptly relative to the city and county. Population 2,000, Altitude 6,964 feet.

THE KEMMERER COAL COMPANY

P. J. QUEALY, Manager

Operating Five Coal Mines at Kemmerer and The Gunn-Quealy Coal Co., at Gunn and Sweetwater, Wyo.

KEMMERER---THE PERFECT COAL

The Best Coal on the Market, has been Given the FIRST PLACE among the Wyoming Coals by the Government of the United States.

The United States Government Equivalents show that to equal the amount of heat produced by burning a cord of oak wood it requires:

2267 POUNDS OF ROCK SPRINGS COAL
2272 POUNDS OF CASTLEGATE COAL
2407 POUNDS OF P. V. WINTER QUARTERS COAL
3168 POUNDS OF WEBER COAL
2137 POUNDS OF KEMMERER COAL

The above Government tests show that

ONE TON 2,000 LBS. OF KEMMERER COAL IS EQUAL TO 2122 LBS. ROCK SPRINGS, 2126 LBS. CASTLEGATE, 2252 LBS. WINTER QUARTERS, 2965 LBS WEBER

FREMONT ABSTRACT & LOAN CO.

"We Have the Record"

Member Wyoming Association of Title Men

Lander **Wyoming**

LANDER.

One of the oldest incorporated cities in Wyoming, the county seat of Fremont county, the present terminus of the Chicago & Northwestern Railroad, 145 miles west of Casper, and 130 miles north of Rawlins. Lander is a beautiful residence town, located on the Popo Agie river and three other beautiful trout streams. Coal, gold, copper, asbestos and oil are found in abundance in this vicinity and at the present time are being mined and shipped in commercial quantities. There are many fine ranches and many large herds of sheep, cattle and horses tributary to the town. Lander is also the shipping and trading point for the Shoshone Indian Reservation, which represents an area of nearly two million acres, four miles north of Lander. Stock raising and agriculture are the principal industries. Population 3,000. Altitude 5,350 feet. (For cattle and sheep men see the Live Stock and Wool Growers' list at Fremont county.)

LARAMIE COUNCIL OF INDUSTRY

Invites Your Inquiry Relative to The Resources and Economic Advantages of the City of Laramie and Albany County, Wyoming.

MEMBER CHAMBER OF COMMERCE UNITED STATES OF AMERICA
MEMBER STATE CHAMBER OF COMMERCE OF WYOMING

Offices City Hall Phone 17 Laramie, Wyoming

LARAMIE.

Laramie, is the county seat of Albany county and is situated in the southern part of the county. The city is a District Division point of the Union Pacific Railroad and is an important point on the Lincoln Highway.

The population of Laramie is 9,000, and located within and adjacent to the city in addition to the large shops of the Union Pacific, are the Midwest Refining Co. and Standard Oil Company's refineries. Also, the plaster mills of four large plaster companies, and numerous smaller industries, such as a tie preserving plant, saw mills, brick yards, etc.

Laramie is the educational center of Wyoming, as the State University is located at this place. The University of Wyoming is one of the most complete educational institutions in the west, and additions are being made to it every year, to care for the ever increasing number of students in attendance.

The city is surrounded by a wealth of natural resources, such as rich gold, silver, copper, oil and other mineral deposits, all of which are undergoing intense development.

The population of Albany county is 11,00 and the elevation of the city of Laramie is 7,149 feet.

LOVELL

The Industrial City of Wyoming.

With the industries already in operation and others that are investigating with the view of locating here, Lovell promises to be the Industrial City of Wyoming. Four industries are already located here: One of the largest sugar factories in the west; an oil refinery, a brick and tile factory and a glass factory, the only west of Kansas. These four industries give employment to a large number of men, making a weekly payroll that runs up into the thousands of dollars. Within six or eight miles of Lovell, are the largest natural gas wells in the state, a means of cheap fuel for manufacturing purposes. More than 100,000 acres of tillable land is contiguous to Lovell, all under the Shoshone Reclamation project, built by the government. The supply of water for irrigation is unlimited. Lovell is located in Big Horn county, on the Denver-Billings branch of the Burlington railroad and the Shoshone river, about 90 miles from the Yellowstone National Park.

LUSK.

Lusk has a population of 2,000 people and is growing rapidly. It is the county seat of Niobrara county. It is a division point of the Chicago Northwestern Railway, midway between Chadron, Neb., and Casper, Wyo.

Lusk is about centrally located as regards Niobrara county. The surrounding country, of which it is a marketing point and a supply headquarters, is largely occupied by men engaged in farming and live stock growing. Lusk has a fine water works and sewerage system.

MANVILLE **WYOMING**

MANVILLE.

An incorporated town in Niobrara county, on the C., N. W. R. R., 28 miles west of the Nebraska line and 8 miles from Lusk, the county seat. Farming, stock raising and mining are the leading industries. Potatoes yield from 75 to 200 bushels per acre; rye from 10 to 35 bushels per acre, wheat from 10 to 40 bushels per acre and oats from 15 to 75 bushels. A large new oil field is being developed just north of Manville, 17 miles, known as the Lance Creek and Buck Creek Oil Fields.

There are now many producing wells and over 100 rigs in operation.

It has an up-to-the-minute water works costing $21,000.00, electric light and power plant, and a sewer system. It is a town whose handsome residences and cement sidewalks would do credit to towns of much greater population.

Manville and community presents one of the best opportunities for either home-seeker or investor, in the west. For further information address the Manville Commercial Club. Population 500. Altitude 5,000 feet.
